

DIAMOND BRIGHT CYBERGUARD™

Executive Business Cyber Risk Assessment

Prepared For	Diamond
Assessment ID	DB-20260625-174258
CyberGuard Score	97/100
Overall Rating	A
Estimated Risk Level	LOW
Recommended Plan	CyberGuard Essential
Potential One-Day Impact	Not Calculated

Executive Summary

Diamond Bright LLC completed a CyberGuard Business Cyber Risk Assessment for **Diamond**. The assessment produced an overall CyberGuard score of **97/100** with an estimated risk level of **LOW**. This report is designed for business ownership and explains the findings in clear, practical terms.

What This Means

CyberGuard turns technical assessment results into business guidance. The goal is to identify what is working well, highlight areas that need attention, and provide a practical action plan to reduce cybersecurity and technology risk.

What Is Working Well

Area	Observation
Storage Health	System storage appears healthy.
Firewall	Firewall protection is active.
Internet	Internet connectivity was verified.
Core Services	No failed critical services were detected.
Wireless Security	Wi-Fi encryption appears acceptable.
Network Visibility	Device inventory was successfully completed.

Priority Action Plan

Priority	Recommendation	Business Benefit
1	Enable Multi-Factor Authentication	Protects important accounts even if a password is stolen.
2	Verify Backup Recovery	Confirms recovery is possible after data loss or ransomware.
3	Review Router and Firewall	Reduces exposure from outdated or misconfigured network equipment.
4	Review Connected Devices	Helps identify unknown or unnecessary devices.

5	Schedule Recurring Assessments	Tracks risk over time and supports ongoing protection.
---	--------------------------------	--

Business Impact

Technology downtime can affect employee productivity, customer service, payment processing, communications, and daily revenue. Based on the information collected, the estimated one-day business impact is **Not Calculated**.

Diamond Bright Recommendation

Based on the assessment results, Diamond Bright recommends **CyberGuard Essential**. Recurring CyberGuard protection provides ongoing visibility, monthly review, technology health checks, and clear recommendations before small issues become costly disruptions.

Next Steps

1	Review this report with Diamond Bright LLC.
2	Decide which priority items should be addressed first.
3	Schedule remediation or monthly protection if desired.
4	Repeat the assessment regularly to track improvement.

This report reflects conditions observed during the assessment and is intended to help prioritize security improvements. It is not a guarantee that all risks or vulnerabilities have been identified.
